

Capacity Building on International Trade and Health: Thailand's experience

Orapan Srisookwattana
Deputy Secretary General
National Health Commission Office Thailand

Complex and Challenging

Working Together

Mutual Benefits

Trade

Health

CB on 'Trade' and 'Health' sides is needed.

**Trade & non-health sector
understand more on
health concerns.**

**Health sector
understands
more on trade
and
diplomatic
system.**

Technical, negotiation,
communication skills

Training courses ,
Graduate, Real CB Forum

Research Hub/ CB Fellow -
Build up & Strengthen
individual/ institutional
capacities

- **Technical, negotiation, communication skills**

- **IHPP/ ITH**
- **NCITHS**

Health in All Policies (HiAP)

- ‘HiAP’ is a key approach to trade and health policies.

“HiAP is an approach to public policies across sectors that systematically takes into account the health implications of decisions, seeks synergies, and avoids harmful health impacts in order to improve population health and health equity.” WHO, 2014

Health in All Policies (HiAP)

Based on HiAP's reflected principles, **T&H policies** should follow the following principles:

- Legitimacy
- Accountability
- Transparency
- Participation
- Sustainability
- Collaboration

Future CB for ITH by HiAP Framework

- **Train/Support Health Professional** analyze wide range of issues (legal & regulatory aspect of policies)
- **Research capacity:** Research package by mix skill researchers across sectors working together, keeping up-to-date, future projection
- **Build capacity in other ministries/ sectors:** proper guidance concerning health impact for their impact assessment
- **Build institutional capacity including GHD & ITH workforce capacity in the future : formal education**

Thank you
